Description:

With this party light by Eurolite you can illuminate small and medium-sized rooms in three different colors plus white - and cover the room in fancy wash and strobe effects.

A rotating mirror ball with four LEDs swirls brilliant RGBW colors through the room while an extra 32 LEDs make for strobe effects, chases and more. Tiny light dots from two laser diodes make a great contrast to this sea of colors. For control you can either rely on the four preset programs or you use the supplied IR remote control to make adjustments.

The Eurolite Hybrid Laserflower is equipped with a microphone adjusting the effects to the rhythm of the music if you choose the sound-controlled mode - without any further adjustments on your part. All necessary plugs and cords are included and the mounting bracket allows for installation at any location you choose. The Mini FE-4 is an all-rounder for every occasion, be it slow wedding dances or a lavish party.

Features:
