Description:

Hard top instead of soft bag

Most KLS light sets are delivered with a transport bag. This flight case offers a professional way of transportation for users who deem the soft bag unfit for extensive use. It is also a good solution for users with a lost or broken soft bag.

Apart from precise cut outs for the KLS light set and the foot switch, the case is equipped with an extra compartment of the same size which can be used for cables etc.

Designed for professional use, it still can be easily carried or pulled by a single person thanks to strategically placed handles and two integrated castors.
