Microphone line mixer, 7 channels

Art. No.: 12604176

GTIN: 5060502923219

List price: on demand €

incl. 19% VAT.

Description:

The INTUWORX PAA71 is 7-channel mic/line mixer and the perfect center of any installed sound system. It offers 5 multi-purpose inputs which can either be fed with a balanced microphone signal or an unbalanced stereo line signal. One further balanced stereo line level input is specifically useful for sources at larger distance, like a mixer on a stage, or the output of a secondary room's system. The same input can be switched to receive its input signal from the 3.5mm TRS jack on the front, or the built-in LINKOUSTIC 4.2 wireless audio link. An additional dedicated microphone input with adjustable talkover (priority) provides control over announcements. Every input -- with the exception of the balanced stereo input -- is equipped with rear-panel gain control and a front-panel 2-band equalizer. The external shutdown and emergency signal input connections allow integration with central announcement and evacuation systems where required.

Features:

- (19") 48.3 cm rack installation
- For further information about this product, please refer to the Data Sheet under "Downloads"

Package contents

- 1 x user manual, 1 x mixer, 1 x power cord, 10 x screw plug-in terminal, 1 x plug (male), 4 x foot, 1 x antenna

Technical specifications:

Power supply: 115/230 V AC, 50/60 Hz

Power consumption: Max. 12 W

Logistic

EAN / GTIN: 5060502923219

Weight: 3,25 kg

Length: 0.54 m

Width: 0.33 m

Height: 0.10 m

Protection class:	Protection class I
Power connection:	Mains input via IEC (M) power supply cord with safety plug (provided)
Frequency range:	20 - 20000 Hz
S/N ratio:	>82 dB line
