Description:

The Omnitronic SHP-900M are closed, circumaural, dynamic stereo headphones with a very high output power. The powerful 50 mm neodymium magnet and a HQ voice coil provide for excellent sound with high-output bass and extended highs. The headphones not only effectively attenuate external noise but also minimize spillage from the headphones to the outside world. This makes them especially suitable for use as monitoring headphones in a noisy environment, film and theater applications, DJ or recording applications.
