Description:

The SC-SPIRIT XXL is the dream of all guitarists. Meanwhile it is used by most professional musicians around the world and has a great reputation on the instrument cable market. Due to the special stranding technique, the large wire diameter of 1 x 0.75mm and the double shielding (semiconductive lead + copper shielding) it hardly has any competition on the market. Despite the excellent technical data this black cable SC-SPIRIT winds easily without bouncing.
