Description:

Controller with wireless remote control for LED strips

Use the EUROLITE LED Strip RGB RF Controller to control your RGB LED strips for 12 to 24 volts. The supplied ergonomic, user-friendly remote control with touch-sensitive color wheel is well designed so that you can select the color conveniently.

The controller offers you ten integrated programs - you can also adjust the speed and brightness.
If the remote control is not used for a longer period of time, it automatically switches to standby mode. A simple movement or slight shaking turns the remote on again. This function increases the life of the three micro-batteries included in the package.

The range is up to 20 meters.
