Description:

The light at the end of the tunnel!

You certainly know the effect: You look at the tv. The screen shows a tv in front of a wall. On this screen you once more see the tv in front of a wall - a picture in picture. So this procedure goes on and on and thus produces the effect of a tunnel. A similar result can be created with our EULROLITE LED Mirror tunnel. On each of the four sides there are 10 LEDs. Due to several mirrors, the impression of a long, illuminated tunnel emerges. This is an exceptional and for just that reason lovely effect that will attract the attention. Furthermore 8 different patterns can be selected, so there is definitely no dull moment and variety is guaranteed. Besides the white version of the mirror tunnel, blue and multi-color exemplars are also available. By the way, all units are delivered with a functional stand.
