

MADRIX USB Contact Closure

MADRIX I/O products are supplementary input and output devices for the MADRIX software

Art. No.: 51860382

GTIN: 4260263421110

The article is no longer in our assortment.

Features:

- External equipment, such as sensors, bring additional automation processes and interaction to any LED project using MADRIX software
- This digital input device registers if its circuit is either open or closed. In most cases, it is used to build a switch or trigger
- Incoming values are directly translated into DMX data in the MADRIX software
- MADRIX I/O requires MADRIX 3. Please update at least to MADRIX 3.4
- More information available at www.madrix.com
- The device can be connected via USB to the PC in connection with MADRIX software
- Made in Germany
