Description:

High LED power in bright colors

The LED Flash Flower by Eurolite produces impressive, room-filling flower effects in home party rooms, smaller clubs and more.

Three rotating prisms as well as three 30-watt COB LEDs (RGBW) and 132 SMD LEDs (RGB) generate flicker-free color mixtures, chases and strobe effects that (when operated in sound-controlled mode) change their direction with each bass beat. The sensitivity of the integrated microphone can be adjusted using the rotary control.

Alternatively, you can also choose the automatic or DMX mode for operation and use the master/slave function to make multiple devices work in sync.

The sturdy all-metal enclosure provides 3-pin DMX connectors as well as an IEC main input and a feed-through output for daisy-chaining up to 8 units.

Features:

- Light effect with three 30 W COB LEDs (RGBW), rotating 8-facet prisms and 132 SMD LEDs (RGB)
