

EUROLITE LED DMX Flash UV/10mm LED

This strobe can do more than the others can!

Art. No.: 52201815

GTIN: 4026397324204

The article is no longer in our assortment.

Description:

Paint it black!

Might a new technic be a curse for some, for most however it is a blessing. Using the example of the EUROLITE LED DMX flash it becomes more than obvious. The LED technic helped here in particular, making the strobe usage easier and more unproblematic. As many conventional strobes implicate a cracking sound in the system when activated and also show a high power usage, 336 white (6000 Kelvin) 10mm LEDs have been implied as a source of illumination. Lo and behold, it is working. Not only that the exceptionally powerful LEDs show off a more than convincing light output and thus introduce a fantastic black light to clubs or stages, also the annoying crackle is a thing of the past. With this strobe you will make friends, even with a technic grouch.

Features:

- Controller-connection and synchronisation via two 3-pin XLR plugs
- DMX control via any standard DMX controller
- Brightness, strobe speed and DMX addressing via DIP switches
- Sound-control via built-in microphone
- Compact construction with high-quality metal housing
- Ready for connection with the enclosed power cord and safety-plug
- Also available in white (6000 K) version
- Ideal for main halls, stages, lounges, small discotheques or mobile DJs
- Equipped with 336 x 10 mm UV LEDs
- Advantages of LED technology: long life of the LEDs, low power consumption, minimal heat emission, defacto maintenance free with brilliant light radiation
