

ALUTRUSS BI/TRISYSTEM spare connector PSP1 spigot

High-quality truss system accessory

Art. No.: 6020640B

GTIN: 4026397125597

The article is no longer in our assortment.

Description:

TRISYSTEM 3-point truss system

TRISYSTEM is a 3-point truss system made of aluminum. The individual elements are connected via three tube fasteners and two M10 bolts and nuts.

The three main chords are made of 50 mm aluminum tube with 2 mm wall thickness and offer a good relation between strength and weight. The braces have a diameter of 16 mm with 2 mm wall thickness and leave enough space for installing couplers, hooks and clamps.

With 263 and 238 mm outer dimensions, TRISYSTEM is a relatively compact truss system for higher loads. TRISYSTEM is mainly designed for permanent installations in shops, discotheques and theatres.

By using the optional rapid snap connectors, this system can also be used for fair installations and event installations.

Altogether a universal truss system impressing with its wide range of standard system lengths, corners and accessory.

Features:

- Extreme stability
- High-quality aluminum
- Easy installation
- Low weight
- For exhibition and shop installers, discotheque and theatre installations
- Trusspipe: 50 mm

EAN / GTIN: 4026397125597

Weight: 0,33 kg

Length: 0.25 m

Width: 0.14 m

Height: 0.47 m

Technical specifications:

Trusspipe:	50 mm
Color:	Alu colored
Weight:	310 g
Alloy:	AlMgSi 0.5
Welding material:	AlMg 5
Welding technique:	TIG-welding
Outer diameter:	45 mm
Strength:	2.5 mm
Inner diameter:	40 mm
Length:	250 mm
