Description:

Europalms artificial olive garland is perfect as a table, door or wall decoration in your home or business premises. It can be used in many ways: In the twinkling of an eye, you will give your premises a Mediterranean flair.

During the production, a lot of attention was paid to lifelike details: For example, the typical leaf design in different shades of green, and olives that indicate the different degree of ripeness of the fruit in different shades of color.

The flexible garland has a length of about 180 cm and can be easily attached with eyelets distributed along the entire length. After its use, it can be rolled up again to save space.
