Description:

Whether for your wellness area, the winter garden, a hotel complex or your private rooms; the 3-stem banana tree from Europalms is ideal as an easy-care decorative element. Thanks to the impressive overall height of approx. 240 cm, the subtropical-looking artificial plant cannot be overlooked.

Its trunks are wrapped in dried banana bark. This gives the subtropical-looking artificial plant a very natural appearance. The dense leafage of the shrub was made of waterproof tarpaulin with the typical leaf embossing.

As an option, we recommend treating the leaves at regular intervals with a UV-protection spray so that you can enjoy your banana plant for a long time.

The banana tree has a total height of approx. 120 cm and is supplied in a basic gardener's pot, which gives the plant a stable stand when placed in a planter.

Features:

- Artificial trunk wrapped with natural material
- The article is delivered Ready to stand
- Suitable for outdoor use
- With approx. 34 greencolored lifelike leaves
