Description:

Are you still looking for the right complement to your decoration in living rooms, medical offices, wellness areas or business premises? Then the artificial succulent mix from Europalms is the right choice. The trendy home accessory is composed of three different succulents. These were made entirely of plastic and look very similar to their models due to a natural color gradient. The trio is presented in plastic design pots of different heights, which are firmly connected to each other. A deceptively real sand cover completes the lifelike appearance.

Features:

- In three modern connected pots
- The article is delivered Ready to stand
- Suitable for outdoor use
- With approx. 28 lifelike leaves

Technical specifications:

Standing/fixation:	Design planter
