Description:

Globated and funny to look at - the self-inflating snowman by Europalms must not be missing in your winter decoration.

With a black top hat, scarf, carrot nose, "branch arms" and a friendly smile, he brings a lot of joy into the dark season.

Even in the dark he is a real eye-catcher, because it is enlightened with cool white LEDs discreetly from the inside.

The protection class IP44 - splash-proof - also allows outdoor installation in sheltered areas.

It is that simple:

For operation, permanently connect the snowman to the power supply with a 1.70 m long supply cable. He then blows up to his full size on his own.

The stable stand is ensured with additionally included mounting cords, which are attached halfway up the figure and the ground.

After the season, the figure can be folded up again to save space.
