Animated figure with light, sound and motion effects

### Description:

Clown Robby is no ordinary joker - with his eerie appearance, he will provide an extra dose of fright for the guests at your Halloween event. Whether as an eye-catcher in the Halloween decorations or as a gruesome decoration in the entrance area of the house - he is sure to provide unforgettable scary moments.

His face is as white as death itself, with generously applied purple make-up around the eyes and deep black painted eyelids. A blood-red mouth, surrounded by a broad grin, reveals gray-black discolored teeth and black gums. Even the bravest of people shudder at the sight and goose bumps are inevitable. His hands with wide open palms and black painted nails seem to be reaching for their next prey, adding to Robby's menacing presence.

During the animation, the arms move back and forth, the head makes wild circular movements, the eyes flash red and a spooky noise is heard.

However, the special feature of the Halloween decoration is that it can be easily hung on a garden fence, door or cupboard. The same technique as with a door coat rack makes hanging it up easy as possible.

(For use in living rooms, we recommend covering the hook with felt to protect delicate furniture from damage).

The animation of the decorative figure can be activated using the integrated microphone, the "Step here" switch pad or wired, manual control.
