Description:

Directly from the coffee factory!

Original coffee bags are sought-after accessories for interior design. With a few simple steps, they can also be transformed into various decorative objects and used, for example, as plant pots.

The used jute bags are traditionally printed with various motifs of the respective coffee-growing regions. Accordingly, they also differ in their fiber structure and size. These characteristics make the original coffee bags popular upcycling objects. Let your creative ideas run wild!

Please note: a selection by motif and structure is not possible, but is subject to availability.

Features:

- Original coffee bean bag made of jute
- Purchased directly from coffee manufacturers
- Different motives, fabric and sizes
