Description:

Search and you will find!

At airports, the search for metallic items is standard. But on concerts or at the entrance of a discotheque, it is also often advisable, to search guests for illegal metallic objects. The FWS-300 helps you with this control. Via a peep or a vibration it warns you, that objects could have been located. Due to a also delivered holster, the metal detector can be carried in a secure and comfortable manner.
