AD-500 Antenna Distributor Set

Répartiteur d'antenne

Réf. : 13063032

GTIN: 4026397438321

Caractéristiques:

- Active antenna distributor for operating up to four UHF receivers on one pair of multi-antennas
- Improves the interference safety and enlarges the range
- Replaces the respective antennas and PSUs of the individual receivers
- Up to five antenna distributors AD-500 can be connected among each other for use of 16 microphones in total
- Directional antennas made of durable glass/copper with 1.5 cm thread (5/8") for stands
- Low-voltage outputs for supplying four UHF receivers, incl. matching connection cables
- Use in the entire UHF frequency range (600 - 900 MHz)
- All antenna connections via BNC jacks
- Rack installation with 1 unit
- Rugged steel housing
- Incl. padded transport case, with aluminum profile frames
