Description:

Really something special!

When working with light it's normally about creating atmospheres. This applies for huge stage lights, fancy club effects as well as for light chains. Even though the latter might not be seen on stages or the like, but as decoration object or as background illumination. But honestly, what would an evening in a beer garden or sidewalk café be without the stylish colors of a light chain? That is why you should take a closer look at our LED marble garland. Due to the uninterrupted gradual fading out of colors in a given period of time, the 25 LEDs (the chain is also available with 50 LEDs) create a magic atmosphere everywhere. And as the handling is so easy, the fields of application are numerous - both inside and outside (IP 44). So definitely not suited for a sidewalk café only.

Caractéristiques:

- Charms fantasy in party-rooms, on balcony or terrace, even in umbrellas of the sidewalk cafes, or in trees in pedestrian zones or private gardens
- Can also be used as indirect illumination
- For indoor and outdoor use (IP44)
- Easy handling and installation
