

## EUROPALMS Areca, plante artificielle, 110 cm

Jeune palmier

Réf. : 82509434

GTIN: 4026397647211

### Description:

Areca palms are also known as golden cane palms and are one of the most popular tropical houseplants thanks to their elegant appearance. They bring summer flair to business premises, offices or your own four walls and transform them into a green oasis in no time.

This lifelike artificial palm from Europalms has a total height of about 110 cm and was made with great attention to detail. It consists of three trunks of different heights, with dried natural material incorporated to ensure an authentic appearance. Its authentic-looking fronds are made of textile and have a lifelike coloring. Also, their variously graded, airy arrangement on the trunk was realistically modeled after the original of a young areca palm tree, making the artificial palm an exotic eye-catcher for your premises.

The artificial plant is delivered in a black gardener's pot, which gives the plant a stable stand when placing it in a planter.
