Description:

The 100 cm long magnolia branch of Europalms has two large, open purple flowers and small branches. It convinces by a natural color gradient in the petals and enhances your decoration as a stylish accessory. As a design element in your office, your home or as part of an arrangement, the flexible flower branch fits in perfectly.

The material EVA (ethylene vinyl acetate) gives you a product with a deceptive look, pleasant feel and high resistance to ageing.

Magnolia plants belong to an ancient plant species. In nature, they will transform your garden into a sea of flowers as soon as the first warm days announce spring. Their large, porcelain-like flowers, which usually appear before the leaves shoot, are hard to top by their simple beauty.
