
SOMMER CABLE DMX cable XLR 5pin 1.5m bk Neutrik

Cavo dati di alta qualità

Art.n.: 3030747AGTIN: 4049371275118

Descrizione :

DMX cable by premium manufacturer Sommer Cable

These premade cables are the perfect choice for the transmission of the 110 ohms AES/EBU DMX512 data format.

Important note: the use of a standard microphone cable is not recommended due to data and information losses (caused by the skin effect). In the lighting domain data losses cause a total jam with signal transmissions or the control of scanner systems.

The very affordable price of this cable should make it easy to switch from a standard microphone cable to a proper AES/EBU cable. Our AES/EBU cable guarantees the error-free data transfer even over longer distances of up to 100 metres. We use the BINARY 434 AES/EBU MKII AES/EBU cable with 100 % shielding and the NEUTRIK XLR connectors.

Features :

- AES/EBU- and DMX-conformant, highly flexible
- Very good shielding through the use of copper spiral shielding and a fleece vaporized with aluminum
- Extremely robust with an especially strong jacket
- Only a little more expensive than a standard microphone cable
- For networking of scanners, lighting units, digital mixing boards, etc.
- For indoor and outdoor installation
- For connection of digital audio amplifiers, DAT-recorders, etc.
- Collegamento a innesto NEUTRIK installato

Logistica

EAN / GTIN: 4049371275118

Peso : 0,19 kg

Lunghezza : 0.18 m

Larghezza : 0.18 m

Altezza : 0.02 m

Dati tecnici :

Lunghezza cavo:	1,5 m
Collegamento A:	1 x XLR a 5 poli (M)
Collegamento B:	1 x XLR (F) a 5 poli
Uso del marchio:	Collegamento a innesto NEUTRIK installato
Colore:	Nero
Peso:	0,18 kg

Contenuto della confezione:
