
FIRESILX Boston Fern, artificial plant, Class B, s2, d0 low flammability, 50cm Art.n.: 82559941

Abundant foliage with a light, natural look

GTIN: 5055183974131

Descrizione :

Ferns are timeless classics in interior greenery design and are valued for their fresh, natural appearance and vibrant character. With the artificial Boston Fern (FIRESILX), this distinctive appeal can be enjoyed indoors year-round without any maintenance.

Its numerous elegantly cascading fronds give the fern a particularly full and lush appearance, creating a natural sense of volume. Measuring 50 cm in size, the Boston Fern is an excellent choice for planters, shelving units, reception counters, and decorative arrangements. Whether used as a standalone feature or combined with other plants, it creates a harmonious atmosphere and brings natural lightness to any setting. It is particularly well suited for hotels, restaurants, wellness areas, office buildings, and upscale residential interiors, where it contributes to a polished environment and adds stylish green accents. Its classic appearance allows it to be integrated effortlessly into a wide variety of interior design styles.

Thanks to its flame-retardant B1 construction, the artificial fern is also ideal for environments with elevated fire safety requirements. In public facilities, trade show installations, event venues, and prestigious commercial spaces, decorative greenery concepts can be realized even where specific fire safety regulations must be observed.
