

EUROPALMS Halloween Pumpkin Ghost, animated, 110cm

Figura animata con effetti di luce, suono e movimento

Art.n.: 83316173

GTIN: 4026397745061

Descrizione :

A ghostly creature floats silently in the darkness - its head, a pumpkin with an eerie grinning face, wrapped in a flowing white robe. At first glance, the scene appears threatening, but the spooky figure hides a surprising secret.

Both hands rest firmly on the pumpkin, as if it is keeping its gruesome secret hidden until the last moment - but as soon as the animation of the Halloween figure starts, the ghost begins to move and its body slowly slides down out of the pumpkin. A cheerfully laughing ghost face emerges, transforming the ominous first impression into a playful Halloween decoration. The magical transformation is accompanied by eerie ghost noises that create a spooky and beautiful atmosphere. The ghost's head is also illuminated by blue LEDs.

Thanks to a practical loop, which serves as a suspension, the figure can be positioned flexibly. Whether on the ceiling, in a door frame or as a floating spooky creature in dark corners: it is guaranteed to provide spooky moments of surprise and give every party a playful yet spooky atmosphere.

The animation of the hanging figure is activated by wired manual control.
